

# SCHRAMM INC.

Schramm Inc. is one of the world's leading providers of well drilling equipment. They operate a 27-acre manufacturing facility located in West Chester, PA. Schramm is also a world class corporate citizen dedicated to operating in an environmentally responsible manner. Schramm relies on Brickhouse Environmental engineers and scientists to manage their air, water and waste permitting, and ensure that they stay compliant with the myriad of environmental regulations applicable to their operations.

In response to the growing global market for high-quality water and mineral exploration drill rigs, Schramm has experienced rapid growth over the past several years. As Schramm continues to expand, Brickhouse Environmental has been there to guide them through the maze of regulatory hurdles so that they can focus on what they do best: build and deliver superior drill rigs and services.

## **Schramm practices excellent housekeeping**

Some highlights of Brickhouse Environmental's project work at Schramm include:

- Implemented waste minimization measures and alternative waste disposal plans that will result in annual cost savings of approximately \$30,000.
- Obtained the air permits to allow emissions from their drill rig manufacturing operations.
- Manage the recordkeeping needed to document compliance with their permit requirements.
- Perform periodic regulatory compliance audits to proactively identify any new additional regulatory requirements.
- Consulting for soil characterization and disposal of excess fill from the construction of a new high-strength building pad for engine testing.
- Preparedness, Prevention and Contingency (PPC) Plans.
- Spill Pollution Prevention Control and Countermeasures (SPPCC) Plans.
